

## CombiTherm

CENTRIFUGAL PUMP FOR THERMAL OIL / HOT WATER APPLICATIONS

### System characteristics

The SPX FLOW Johnson Pump CombiTherm is developed especially for thermal oil (DIN 4754) and hot water applications EN12953-6 (DIN 4752) (ratings and dimensions to EN 733 (DIN 24255)). CombiTherm ensures uniform process temperatures while keeping damaging heat away from seal faces and bearings. CombiTherm is designed to require no external cooling when working within the given parameters. The throttle bush, journal bearing and seal placement reduce circulation and temperature along the pump length. This greatly reduces the temperature at the seal face and bearings.

### Applications

The CombiTherm is developed especially for thermal oil and hot water applications: Thermal oil circulation and Heat transfer; Bitumen for roads and roofing; Chemical, agitators, reactors, drying plants, polymerisation; Rubber and plastics, injection moulding, PVC tape; Food, ovens, fish frying, distillation of fatty acids and glycerine, fat softening, potato chips, milk powder plants; Paper, calendar rolls, cardboard. washing machines and driers; High temperature hot water circulation, hospitals, heating systems.

### Technical data

Maximum capacity:	350 m <sup>3</sup> /h (50 Hz) 400 m <sup>3</sup> /h (60 Hz)
Maximum delivery head:	110 m (50 Hz) 160 m (60 Hz)
Maximum liquid temperature:	Thermal oil 350°C, Hot water 190°C
Maximum operating pressure:	16 bar
Maximum speed:	3600 rpm

MATERIAL	
PUMP CASING	NODULAR CAST IRON
IMPELLER	CAST IRON OR STAINLESS STEEL
MECHANICAL SEAL COVER	NODULAR CAST IRON
PUMP SHAFT	17% CHROME STEEL
MECHANICAL SEAL MATERIAL	CARBON TO CERAMIC

### Pump specifics

- Nodular cast iron construction
- Long cooling length displacing seal away from the pumped liquid
- Back vanes and labyrinth prevent solids from reaching bearing and seals
- Product lubricated slide bearing
- Standard mechanical seal

## Performance data

## Dimensions

CAD dimensional drawings available on request.

measurements in mm unless specified otherwise
